Year 10 Language Workshops

FRIDAY 17TH FEBRUARY 2017

Love learning languages? Come and see what uni life is like at a one day interactive workshop designed specifically for Year 10 Language students.

Learning a second language is a highly regarded skill. As well as improving your communication skills, a second language will give you a better understanding of the society and culture of another country.

The Year 10 Languages Day is an experience that will leave you inspired to achieve greater results at school, so that you successfully continue to study languages in Year 11 and Year 12.

You will learn from UOW’s passionate language Academics and choose from workshops in French, German, Italian, Mandarin and Japanese (numbers permitting).

Please bring all food and drinks for the day and equipment for taking notes.
